SKILLS

Tech stack: HTML, CSS, JavaScript, React, NodeJs, mongoDb
Languages: Georgian, English

ABOUT ME

I am a highly motivated, energetic, and curious person, with lots of different and often conflicting hobbies and interests. like outdoor sports(climbing), books(sci-fi), martial arts and cooking. I got interested in programming about a year ago and soon realized that it was my passion and decided to invest all my time and effort into studying web development and acquiring new skills in technology.
